Our International Payment Products

Same Day Transaction

FairFX will guarantee to send a payment to the beneficiary within the same day. Our aim to send the payment within the 1 hour of receiving the funds.

Next Day Transaction

A FairFX spot contract allows you to transfer currency at a set exchange rate into another currency within 48 hours.

Forward Contract

FairFX will allow you to fix an exchange rate for a future date. This option removes the possible downward rate risk, by fixing the exchange rate.

Limit Order

Agree a target exchange rate with your dealer and they'll process your transaction if the rate is achieved. This service is ideal if you need to make a transfer that is less time sensitive.

Regular Payment Plans

FairFX offers two types of regular payments plans, a Monthly Variable and a Monthly Fixed plan. Simply confirm whether you want your regular payment amount to be set in Sterling or another currency, eg. £500 every month or €500, and we'll help you set up the rest.

Simple Process

1. Register

Register online to open your company account and get started.

2. Confirm

Specify the currency amount you wish to send and we will confirm our best rate and payment option.

3. Send

Agree the payment details, send us your funds and we will complete the transfer. Arrange your transfer via phone or online.
