

Trouble with OpenAthens?

Try using a WAYFless URL!

You can link directly to our sites without having to use the 'Where Are You From' (WAYF) page. The WAYFless URL will provide you with a direct link for Shibboleth authentication to the corresponding sites.

You will need your OpenAthens entity ID to create a WAYFless URL. If you're an institutional admin, find your entity ID on Sitemanager:

The screenshot shows the McGraw-Hill Professional Demo Sitemanager dashboard. The top navigation bar includes the McGraw-Hill Medical logo, the user name Michael Crumsho, and the date August 8, 2023 - 6:44 PM EDT. The main navigation tabs include Institutional Summary, Access Options (selected), COUNTER R4 Reports, Activity Reports, KBART, and COUNTER R5 Reports. The 'Access Options for McGraw-Hill Professional Demo' section contains several fields: Shared Username/Password (accessdemo2020), Referring URL(s) for this institution, IP Address(es) specified for this account, and Shibboleth Information (highlighted with a red box). The Shibboleth Information section includes fields for Shibboleth Entity ID, Federation (eduPersonScopedAffiliation), eduPersonAffiliation, and eduPersonEntitlement. The OpenURL field shows a partial URL: ?&ft_id=info:doi/. The right sidebar contains sections for Need Help? and COUNTER Reports.

If you're a student or instructor, ask your librarian or search the web.

To create a WAYFless URL, please follow the instructions below:

Medical Access sites:

(Where it's red, type the medical access site that you would like to access. Where it's orange, enter your OpenAthens entity ID.)

Example:

[https://mhmedical.com/SignInShibboleth.aspx?view=handler&redirecturl=https://
/accessmedicine.mhmedical.com&entityID=ENTITYID](https://mhmedical.com/SignInShibboleth.aspx?view=handler&redirecturl=https://accessmedicine.mhmedical.com&entityID=ENTITYID)

You can also direct users to specific content on the Access site by replacing the red URL above with the URL of a particular book on the site.

eBook Library:

[https://mhebooklibrary.com/action/ssostart?idp=ENTITYID&redirectUri=https://
mhebooklibrary.com](https://mhebooklibrary.com/action/ssostart?idp=ENTITYID&redirectUri=https://mhebooklibrary.com)

AccessEngineering:

[https://www.accessengineeringlibrary.com/start-
session?entityID=ENTITYID&sp=mgh-
sp&target=https://www.accessengineeringlibrary.com](https://www.accessengineeringlibrary.com/start-session?entityID=ENTITYID&sp=mgh-sp&target=https://www.accessengineeringlibrary.com)

AccessScience:

[https://www.accessscience.com/start-session?entityID=ENTITYID&sp=mgh-
sp&target=https://www.accessscience.com](https://www.accessscience.com/start-session?entityID=ENTITYID&sp=mgh-sp&target=https://www.accessscience.com)
