

[AccessMedicine: Case Files Collection](#) (CFC) is an online library of true-to-life clinical cases. By including all of the content from the successful Case Files series, students will have access to an extensive collection of carefully crafted cases designed to simulate the clinical approach and decision making. CFC provides students and residents with an easy-to-understand discussion correlated to key concepts, definitions of key terms, clinical pearls and board-style review questions. The collection is organized into basic science cases, clinical rotation cases, and post-graduate cases but you can easily search by a specific book or topic.
