

AccessObGyn User Guide

About This Guide

The **AccessObGyn** User Guide provides users with a detailed roadmap for using and engaging with the resources in the site. This guide describes AccessObGyn and what content can be attained in the site, as well as details how to create and use a MyAccess profile. Also, the guide outlines unique and foundational content across the book's library, quick reference items, drug monographs, multimedia collection, cases, review questions and clerkship specific materials.

Coupled with the AccessObGyn support page on the Access User Center and the AccessObGyn LibGuide, this user guide will provide users with the needed information for effectively deploying the resources in AccessObGyn for academics, research, and clinical practice.

About AccessObGyn

What Is AccessObGyn?

AccessObGyn from McGraw-Hill Medical offers a new approach to obstetrics and gynecology reference and research – all in one place. Updated regularly, this comprehensive online ObGyn resource covers the entire spectrum of obstetrics and gynecology—for viewing on any device.

AccessObGyn can help students excel in their clerkship; assist residents in strengthening their skills with instant access to sonography videos and cases, a growing list of Williams animations, and our expanding library of landmark obstetrics and gynecology references from McGraw-Hill Medical that will establish a solid base for learning; and allow practicing obstetricians and gynecologists to reinforce their medical knowledge for recertification.

Why Is AccessObGyn Unique?

AccessObGyn provides unique benefits that deliver indispensable support in education and certification / re-certification in obstetrics and gynecology – through these exclusive interactive features:

- **More Than Online Editions of Leading References**—Connect instantly to the fully searchable and complete content of updated landmark obstetrics and gynecology references, including the latest edition of the world's #1 obstetrics text, *Williams Obstetrics*. The ObGyn collection also features Clinical Pearls, presentations from both *Williams Obstetrics* and *Williams Gynecology* for study and group viewing.
- **Williams Exclusive Content**—Receive advanced chapters of forthcoming editions of *Williams Obstetrics* and *Williams Gynecology* exclusively on the ObGyn Collection—not available anywhere else.
- **Leading Subspecialty References**—The latest clinical texts and surgical atlases in urogynecology, gynecologic oncology, and fetal medicine, including *Fetology*.
- **Dedicated Multimedia Library**—View a unique collection of more than 100 sonography videos and cases, plus a growing list of *Williams* animations.

MyAccess Profile

Unlock a Higher Level of Productivity with a MyAccess Profile

Users create and use their personal **MyAccess Profile** to unlock key features:

- Work through challenging patient cases
- Create and take quizzes for board review and self-assessment
- Connect remotely off-site through VPN authentication
- Bookmark favorite content such as videos, images, tables, and chapters to view later
- Organize important content in folders
- Browse recently viewed content
- Receive alerts about important new content additions
- Download multiple images to PowerPoint with citations and references automatically populated

How to Set Up Your MyAccess Profile in 3 Easy Steps

- Go to <https://mhmedical.com/umbrella-index.aspx> or navigate to any Access product homepage. You must be on-site at your institution or organization when first creating your MyAccess Profile.
- Click on your institution's or organization's name in the upper right-hand corner of any page. Once there, click on "Create a Free MyAccess Profile."
- In the pop-up window, click "Create a Free MyAccess Profile."

[Watch this tutorial](#) on the **Access User Center** to learn more about the **MyAccess Profile**.

Helpful Tip

To keep your MyAccess Profile active, you must sign into your profile every 90 days while either on-site or through your institution's or organization's VPN or proxy server.

Searching

The search feature in **AccessObGyn** is simple and easy to use. You can learn more about the search feature by [watching this tutorial](#) on the **Access User Center**.

Search Box

In **AccessObGyn**, you can search for resources across all content types:

- Auto-suggest appears as you type (can be disabled)
- You can "phrase search" using quotations
- Get the same search results by combining terms together or by using **AND**
 - e.g., *pregnancy complications* = *pregnancy AND complications*

Search Builder

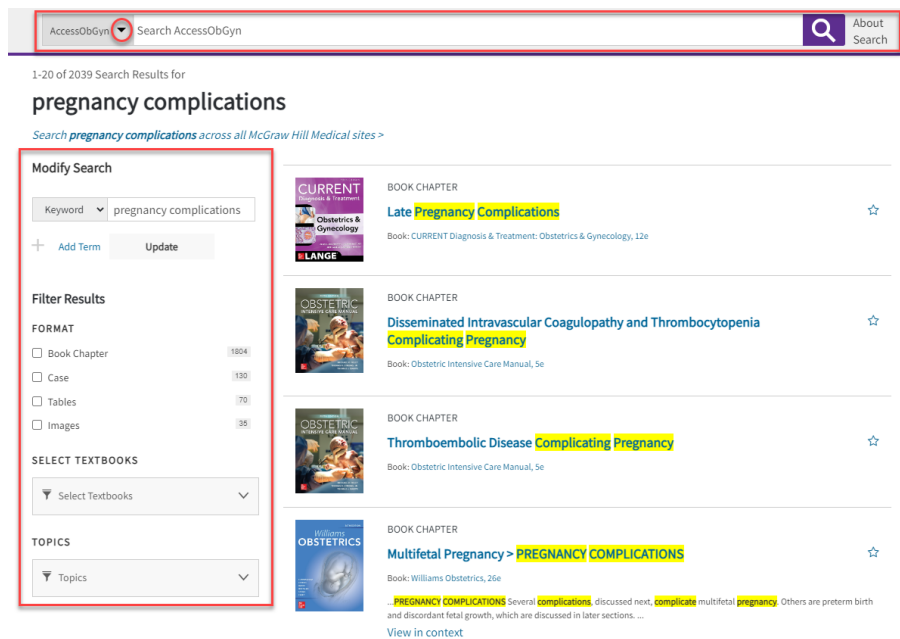

To the left of your search results, search builder allows you to:

- Focus the search by modifying your terms (keyword, title, author, ISBN)
- Filter results by format (chapter, tables, cases, images, multimedia, etc.)
- Select textbooks to see results by specific titles
- Narrow results by topics

Federated Search

A federated search expands your results from **AccessObGyn** to include results from other McGraw Hill Access Medical sites:

- Use the dropdown menu to the left of the search bar to select federated search
- Search builder elements above apply
- Green dot indicates the item is available in your subscription

The screenshot displays the search interface for 'pregnancy complications'. At the top, there is a search bar with a dropdown menu set to 'AccessObGyn' and a search button. Below the search bar, it shows '1-20 of 2039 Search Results for pregnancy complications'. A link below the search results reads 'Search pregnancy complications across all McGraw Hill Medical sites >'. On the left side, there is a 'Modify Search' sidebar with a text input field containing 'pregnancy complications' and an 'Update' button. Below this, there are sections for 'Filter Results' (FORMAT: Book Chapter (1804), Case (130), Tables (70), Images (36)), 'SELECT TEXTBOOKS' (a dropdown menu), and 'TOPICS' (a dropdown menu). The main search results area on the right lists four book chapters, each with a thumbnail, title, and a green star icon indicating availability in the subscription. The titles are 'Late Pregnancy Complications', 'Disseminated Intravascular Coagulopathy and Thrombocytopenia Complicating Pregnancy', 'Thromboembolic Disease Complicating Pregnancy', and 'Multifetal Pregnancy > PREGNANCY COMPLICATIONS'. A snippet of text is visible at the bottom of the results, starting with 'PREGNANCY COMPLICATIONS Several complications, discussed next, complicate multifetal pregnancy. Others are preterm birth and discordant fetal growth, which are discussed in later sections. ... View in context'.

Books Library

In the Books tab in **AccessObGyn**, you will find some of the leading current, authoritative text resources organized into categories in the left-hand sidebar, including critical care, gynecologic oncology, maternal-fetal medicine, reproductive endocrinology many other topics.

The screenshot shows the AccessObGyn website interface. At the top, the logo and navigation menu are visible. The 'Books' tab is selected in the sidebar, which lists various categories. The main content area is titled 'Textbooks' and features a search bar and navigation tools. Three textbook covers are displayed with their respective titles and authors:

- Williams Obstetrics, 26e** by F. Gary Cunningham, Kenneth J. Leveno, Jodi S. Dashe, Barbara L. Hoffman, Catherine Y. Spong, and Brian M. Casey.
- Cunningham and Gilstrap's Operative Obstetrics, 3e** by Edward R. Yeomans, Barbara L. Hoffman, Larry C. Gilstrap III, and F. Gary Cunningham.
- CURRENT Diagnosis & Treatment: Obstetrics & Gynecology, 12e** by Alan H. DeCherney, Lauren Nathan, Neri Laufer, and Ashley S. Roman.
- Female Pelvic Medicine and Reconstructive Surgery: Clinical Practice and Surgical Atlas** by Rebecca G. Rogers, Vivian W. Sung, and Cheryl B.

- [Complete Full-Text Library](#)
- [Archived Textbooks](#)
 - In the archived textbooks page, browse previous editions of textbooks hosted on **AccessObGyn** purposes of reference.

Books Library (continued)

Chapter Task Bar

- Each chapter in **AccessObGyn** texts features a **Chapter Task Bar** with user output functions, including skipping to chapter sections, downloading as PDF, sharing, generating citations, searching within, and adding notes. [Watch this tutorial](#) on the **Access User Center** to learn more about the Chapter Task Bar.

CHAPTER 2: Maternal Anatomy

Text to Speech Tool

- Each text and chapter section in **AccessObGyn** includes a **Text-to-Speech Tool** indicated with the icon tool below. Users can adjust the tool's settings under the menu to the left, including highlighting levels, text coloring, reading speed, etc.

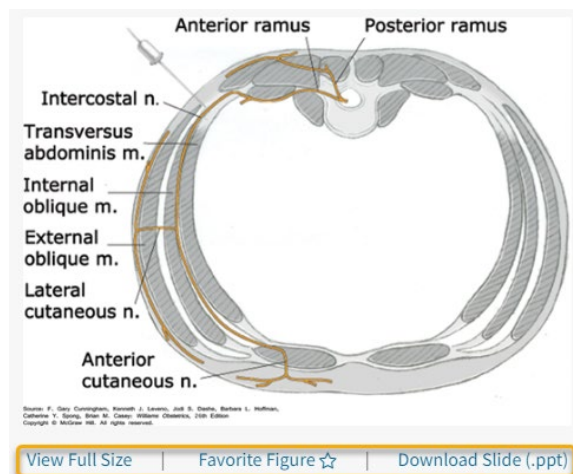

Notetaking Tool

- Hypothes.is** annotation tool allows users to take and share digital notes in each text on **AccessObGyn**. [View this User Guide](#) on the **Access User Center** to learn more about Hypothes.is.

How to Download Content

- In **AccessObGyn**, figures and tables can be downloaded (figures as PowerPoint slides with full citation attribution and tables as PDFs), viewed enlarged and in context within the text, and saved to your favorites in MyAccess profile.
- [View this guide](#) on the **Access User Center** to learn more about downloading figured and tables.

Quick Reference

Johns Hopkins Handbook

- [The Johns Hopkins Handbook of Obstetrics and Gynecology](#) provides concise and authoritative information in a quick bulleted format on different conditions and disorders encountered in obstetrics and gynecology to help users provide the best evidence based care for their patients in the clinical setting.

Drugs

The [Drugs](#) tab in **AccessObGyn** is an integrated drug database of thousands of drugs organized by generics, drug classes, and trade names. Specific drug data includes international brand names. Patient education handouts are available written in clear terms to ensure patients have access to information needed to understand how to take medications and address common questions.

Drug monograph data includes clinical pharmacology, indications and usage, contraindications, warnings and precautions, information for pregnancy and lactation, adverse reactions, drug interactions, dosing, administration, storage and compatibility, monitoring, pricing, and references.

[Watch this tutorial](#) on the **Access User Center** to learn more about the **Drug Monographs**.

Multimedia

The [Multimedia Collection](#) offers a robust library of conceptual and procedural videos, animations and more. The multimedia resources are highlighted below.

Videos

- Variety of videos categorized into [Bedside, Office, and Surgical Procedures](#), [Dx Tests, Treatments, & Conditions](#), both of which demonstrate the procedures in details, and [Williams Obstetrics Collection](#) which presents different obstetric conditions.

Female Reproductive System Module

- Interactive module presenting several informative clips of various disorders which can present in the different organs of the female reproductive system.

Fallopian tube
Ovary
• Normal ovary
• Serous/ Mucinous
cystadenoma
• Epithelial cancer
Uterus
Cervix
Vulva

Lectures

- Lectures based on *Williams Gynecology* presenting evidence-based information on different topics, from general gynecology to reproductive endocrinology and infertility, reconstructive gynecologic surgery, gynecologic oncology and others. Chapters presented are extensively complemented by illustrations, photographs, diagnostic algorithms, and treatment tables.

Cases

The **Cases** tab in **AccessObGyn** provide materials for short, targeted case-based learning that require students to think critically about the content. They vary slightly but for each case, you get a patient history and systems review, some short answer questions, clinical pearls, and references.

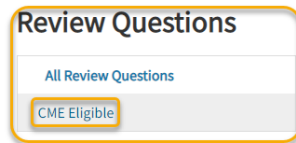

Cases are durable URL-enabled. Instructors can copy the browser URL and embed in an LMS to assign to students to complete. Cases include comprehension quizzes, and the results can be emailed, e.g., student to instructor.

The screenshot displays the ACCESS ObGyn website interface. At the top, there is a navigation bar with 'Cases' highlighted in the dropdown menu. Below the navigation bar, a search bar and a 'Cases' sidebar are visible. The main content area shows a grid of case topics, including 'Abdominal Pain in Pregnancy (Ovarian Torsion)', 'Ovarian Cancer (Epithelial)', and 'Prenatal Care'. A red box highlights the 'Cases' dropdown menu and the 'Case Files: Ob/Gyn' option. Below the grid, a breadcrumb trail reads 'Home > Case Files: Ob/Gyn, 6e >'. The main content area is titled 'Gynecologic Oncology > Ovarian Cancer (Epithelial)' and includes a 'Case' tab, a 'Listen' button, and a patient history paragraph. The patient history describes a 62-year-old woman with a 3-month history of weight loss, abdominal bloating, and an inability to eat much without 'indigestion.' The text continues: 'She has no prior medical problems. On examination, her blood pressure is 110/60 mm Hg, heart rate is 80 beats per minute, and she is afebrile. She is alert and in no distress. Her heart and lung exams are normal. Her abdomen is moderately protuberant, nontender, and with normal bowel sounds. There is a fluid wave present. Based on the clinical findings, the provider suspects a gynecologic malignancy.' Below the history, there are three questions with text input fields: 'What is the most likely diagnosis?', 'What tumor marker would likely be elevated?', and 'What is likely to be the best management of this patient?'. At the bottom of the page, there are 'Save Answers' and 'Show Answers' buttons.

Review Questions

Check out the Review Questions

- Thousands of [Review Q&A](#) designed for self-assessment. Users can generate random and custom review question quizzes from the most popular texts on **AccessObGyn**.

All Review Questions

Generate multiple-choice quizzes from the resources below.

Clerkship

Check out the Clerkship Corner

- Curated content that brings together all clerkship specific resources, including text recommendations and Q&As on essential concepts and procedures clerks may observe or assist in during their rotation.

Support

The **Access User Center** (<https://www.accessusercenter.com/>) features additional support tools for self-guided help when using Access medical collections. Resources are provided in the menu and organized by site, i.e. AccessObGyn, AccessMedicine, AccessPharmacy, etc. Helps include tutorials, guides, and author interviews, as well as marketing and promotional materials.

The **AccessObGyn** page on the Access User Center can be found [at this link](#) which features the complete suite of tutorials, guides, and other helps to ensure a user's self-guided, effective use of **AccessObGyn**.

Also, users can check the **AccessObGyn LibGuide** linked through the **AccessObGyn** page on the Access User Center. This resource features additional guidance on how to navigate and use the site, research help, and links to user resources.
