

Mass Communication solutions from Axis and Singlewire

Detect Threats | Notify Everyone | Manage Incidents

Axis IP audio devices integrate with Singlewire InformaCast® to provide a reliable, scalable, flexible and secure solution for mass communications and paging. Axis IP audio devices incorporate digital signal processing to ensure clear, intelligible voice messages – essential in urgent situations along with built-in microphones, enabling hands-free talk back and remote health monitoring, so you have peace of mind that they'll work when needed.

The Axis and InformaCast integration also supports your daily operations with quality sound for music, paging, live and prerecorded announcements, and bell schedules. You'll also benefit from the robustness of Axis products, a 5-year warranty and world-class customer support.

InformaCast Fusion can help you with the following emergency notifications and actions

Emergency Notification

Get the word out quickly so everyone receives the information they need to stay out of harm's way

Mobile Notification

Send mass text messages, push notifications, and emails to all your people no matter where they are

Desktop Notification

Deliver alerts directly to desktops with network and cloud-based notifications

Incident Management

Manage an event from start to finish with real-time insights, safety resources, and flexible messaging

Paging

Utilize intrusive audio to send live and recorded audio pages to IP phones, speakers and analog paging systems

Bell Systems

Schedule and automate your bells for classes, shift changes, visiting hours and more

Panic Buttons

Use wearable devices, a mobile app, keyboard shortcuts, and designated buttons to immediately request help

Active Shooter Safety

Integrate gunshot detection systems to share alerts and trigger lockdowns

911 Alerting

Notify key personnel when 911 is dialed and send alerts that connect directly to dispatchers

Severe Weather Alerting

Monitor feeds from the National Weather Service to stay ahead of natural disasters

Addressable Markets

- Education – K12/Higher ed
- Healthcare
- Corporate/Enterprise
- Critical Infrastructure
- Government
- and more

Axis Network Audio and Singlewire InformaCast® Fusion

Frequently Asked Questions

Q: How does Axis audio software integrate with InformaCast®?

A: InformaCast® software platform has all the capabilities to configure a public address system with Axis IP audio devices acting as "end points." AXIS Audio Manager Edge, AXIS Audio Manager Pro or AXIS Audio Manager Center will not be required.

Q: I am currently using another brand of speaker with InformaCast. Can I incorporate Axis IP audio devices into my existing system?

A: Yes, it will require an InformaCast license and "AXIS Speaker Functionality for Singlewire InformaCast®" for each Axis IP audio device. Once installed, the devices will automatically register with InformaCast.

Q: Before buying, can I test Axis network audio device integration within InformaCast?

A: Yes, if you have an InformaCast license for the speaker, a free 60-day demo is available under the Axis License Key registration page at <https://www.axis.com/support/license-key-registration>.

Q: How does an Axis customer buy the InformaCast® licenses?

A: 1) Contact any Axis distributor to purchase "AXIS Speaker Functionality for Singlewire InformaCast®". Each ACAP is perpetual, and you'll need one per audio device (order number 03093-001).

2) You will also need to purchase the InformaCast® application license from an Axis distributor currently selling InformaCast licenses: TD Synnex, WESCO and CDW; or contact Singlewire directly at 608-661-1140 option 1 or sales@singlewire.com

Axis network speakers and audio system devices with AXIS OS version 11.10 + can use AXIS Speaker Functionality for Singlewire InformaCast® (order number 03093-001)
