## Explore Boards & Beyond's content

- ▶ **BOARDS & BEYOND'S PRE-CLINICAL** content supplements the first 2 years of coursework and builds students' foundation in all pre-clinical subjects. Instead of buzzwords and mnemonics, we emphasize understanding of the basic & clinical sciences, so students can succeed in medical school and on board exams. Our preclinical content set includes **440+ video lectures** and **2,300+ board exam prep questions**, as well as progress tracking, custom quizzes, playlists, & slide PDFs.
- ▶ **BOARDS & BEYOND'S CLINICAL** content covers clinical topics, including in-depth discussions of diagnosis and treatment that will help students excel during clinical rotations and on board exams. Dr. Ryan illustrates the connections between the mechanisms studied and the actual treatment decisions students will make as doctors. Our Clinical content set includes **260+ video lectures** and over **1,390+ board exam prep questions**, as well as progress tracking, custom quizzes, playlists, & slide PDFs.
- ▶ **BOARDS & BEYOND'S CLINICAL CONFIDENCE** content is created by a team of specialist physicians and aims to help students transition from didactic to practical learning so that they're able to perform well in clinical rotations & beyond. The series covers the real-world application of knowledge when treating patients for the first time, as well as working as part of a team in a hospital setting, including topics that umbrella under 5 core specialty areas –**Hospital Medicine, Surgery, Pediatrics & OB/GYN**.
- ▶ **BOARDS & BEYOND'S OMM SERIES'** content is lectured by Lauren Davis, D.O., a board certified osteopathic family medicine doctor, and designed specifically for osteopathic medical education to strengthen students' knowledge and application of Osteopathic Manipulative Medicine (OMM). It is intended to be used as a companion to Boards & Beyond's existing Pre-Clinical & Clinical content, equipping students with a complete collection of resources they need to achieve overall success. It includes 20+ video lectures that cover 3 main categories –**Introduction to Osteopathic Medicine, Osteopathic Techniques, Osteopathic Principles in Anatomic Approach**.
- ▶ **THE BOARDS & BEYOND AND FIRST AID FORWARD INTEGRATION** allows students to cross-reference relevant content throughout both platforms with bi-directional links strategically placed at the topical level, to get a deeper and more comprehensive understanding of complex pre-clinical & clinical topics.

## Help your students study smarter with Boards & Beyond

### Flipped Classrooms

Boards & Beyond makes it easy to set up flipped classroom sessions. The flipped classroom approach is shown to improve student learning and optimize your face-to-face teaching time.

### Faculty Tools

Institutions also have the opportunity to opt-in to our new Faculty Tools functionality with any Institutional Subscription. It allows instructors to invite their students into a private educational group where they can assign specific video playlists and custom quizzes. Instructors may create an unlimited number of groups, and can invite a TA to assist with creating assignments, monitoring student progress and communicating with the class.

### Remedial Assignments

Guide students who are struggling with challenging concepts (such as biochemistry, genetics, or physiology) towards the exact content they need, with videos that explain complex topics in plain language, and board-exam prep questions to consolidate their understanding with explanations of both correct and incorrect answers.

### Self-Directed Learning

Give students access to a full library of lectures and questions to make use of any time they want to put extra time into studying a particular topic, whether for class, to prepare for clinical rotations, or to study for Board exams. With the ability to create custom playlists and quizzes, students are empowered to discover their own unique paths to learning.

### Use Boards & Beyond to:

- Supplement your curriculum
- Enable self-directed study
- Help students excel on USMLE and COMLEX Board exams
- Boost performance in clinical rotation
