

**Boards & Beyond's Clinical Confidence** content empowers medical learners to successfully transition from didactic education to practical/clinical learning. It offers instructional videos that cover 'need-to-know' information on what to expect during patient encounters and enables learners to begin their rotations with confidence.

100+ videos

33+ hours of lectures

## Content Coverage

Clinical Confidence offers a wide collection of video lectures, presented by specialist physicians with experience teaching and evaluating students on clinical rotations.
