### Abdominal Pain ☆

Acute Care Advisor 2018.1 © 2018 Change Healthcare LLC and/or one of its subsidiaries

#### What is abdominal pain?

Abdominal pain is aching or cramping in your belly. The abdomen, or belly, is the area between the chest and the pelvis. The pain can range from mild discomfort to severe pain.

Many things can cause abdominal pain and it can sometimes be hard to know the exact cause of the pain. Some of the common causes of pain in the abdomen are:

- Indigestion or heartburn

**Edit a logo or add contact information**

**Insert comments here**

**Add a personalized note to the patient**

### Custom Cover Sheet for "Abdominal Pain"

Add/Edit any comments that you would like to accompany this handout. Your comments will be available from the Customize link at the top of the handout toolbar.

#### Add Logo / Contact Info:

*[no logo uploaded]*

[Edit](#)

#### Add a standard comment

This comment can be saved. If you choose to save this comment, it will display whenever you customize the cover sheet for this handout.
