

How do I search for content within an Access site?

From the homepage of your Access product begin by typing your search term into the search bar (outlined below).

The screenshot displays the McGraw-Hill Medical Access homepage. At the top, there is a navigation bar with links for 'McGraw-Hill Medical', 'User Services', 'Subscribe', 'English', 'Sign In', and 'McGraw-Hill Professional'. Below this is the 'ACCESS' logo and the McGraw-Hill Medical logo. A secondary navigation menu includes 'Books', 'Quick Reference', 'Drugs', 'Multimedia', 'Cases', 'Study Tools', 'Patient Ed', and 'Hospital Corner'. The main search area features a search bar with the placeholder text 'Search AccessMedicine' and a dropdown menu for 'AccessMedicine'. A red arrow points to the search bar with the text 'Enter search term here'. To the right of the search bar is a magnifying glass icon and the text 'Advanced Search'. Below the search bar is a row of book covers, including 'HARRISON'S PRINCIPLES OF INTERNAL MEDICINE', 'CURRENT Medical Diagnosis & Treatment 2018', 'Graber and Wilbur's Family Medicine Examination and Board Review', 'CURRENT Diagnosis & Treatment Nephrology & Hypertension', 'Pulmonary Physiology', and 'CURRENT Practice Guidelines in Primary Care 2018'. Navigation arrows are visible on the left and right sides of the book covers. At the bottom, there are links for 'Browse Books by Topic' and 'Get Alerts'.

Search across a specific Access site
