

Where can I find quick summaries of diseases and conditions?

Most sites have a “Quick Reference” tab located on the toolbar, which contains resources summarizing diseases and conditions.

The screenshot displays the ACCESS Medicine website interface. At the top left is the ACCESS Medicine logo. Below it is a navigation toolbar with the following items: Books, Quick Reference (highlighted with a blue border), Drugs, Multimedia, Cases, Study Tools, Patient Ed, and Hospital Corner. A search bar is located to the right of the toolbar, containing the text "Search AccessMedicine" and a magnifying glass icon, with the text "Advanced Search" and an information icon to its right. A dropdown menu is open under the "Quick Reference" tab, listing the following options: QMDT, Guidelines — Primary Care, Guidelines — Inpatient Medicine, DDx, Diagnostic Tests, Clinical Prep, 2 Minute Medicine®, English-Spanish Dictionary, and Calculators. Below the navigation and search area, there is a row of book covers. From left to right, they are: Harrison's Principles of Internal Medicine (20th Edition, Online First), Current Medical Diagnosis & Treatment 2018 (LANGE), Graber and Wilbur's Family Medicine Examination and Board Review (LANGE), Current Diagnosis & Treatment Nephrology & Hypertension (LANGE), and Pulmonary Physiology (LANGE). Below the book covers, there are partial views of "Medical Dictionary" and "Clinical Genomics". A right-pointing arrow is visible on the far right side of the page.
