

**EQUAL  
EDUCATION  
OUR MISSION  
AND IMPACT**

# OVERVIEW

## OUR VISION:

We want to see a society where no young person is disadvantaged, sidelined or disempowered by the circumstances of their upbringing. Instead, we want to see vulnerable children accessing the same opportunity and carrying the same aspiration as everyone else, so that they can fulfil their potential and enrich and advance our world

## WE ARE DOING THIS BY:

Building a different kind of teaching community, one made up of resourceful, resilient, caring qualified tutors, who are driven by the profound impact they can have on young lives.

- Providing tailored tuition programmes, online and in-person, working closely with parents/carers/teachers and support workers.
- Empowering tutors to provide effective, empathetic, life-changing tuition to learners and advocating for their needs through strong multi-agency working.
- Investigating what works through impact monitoring and evaluation, sharing lessons across the education sector and partnering with mission-aligned organisations to increase the impact of our programmes

## OUR VALUES:

- Child-Centred
- Human
- Restless
- Effective

## HOW CAN WE SUPPORT?

Are you searching for innovative solutions to address the challenges of student disengagement, school exclusions, and unlocking the full potential of every learner?
