DESIGNING

LEGAL EDUCATION

WORKSHOPS

OVERVIEW

**STREET
LAW HONG KONG**

This summer, I partnered with Street Law HK to design legal education workshops for various communities in Hong Kong.

KEY ACTIVITIES

- 1 Entrepreneurship workshop
- 2 NGO events
- 3 Anti-scam talk for domestic helpers
- 4 School talks

RELATED SDG

4. Quality education

10. Reduced Inequalities

16. Peace and Justice

HIGHLIGHT

An unexpected lesson for me was learning about the power of community. While speaking with foreign domestic helpers during an anti-scam workshop, I discovered that many already possessed considerable knowledge because they regularly exchanged information and advice with one another. This showed me how communities can play an important role in spreading awareness and protecting their members.

MY TAKEAWAYS

Educated myself on unfamiliar areas of law and accessibility services in the legal system.

Connected with people in NGO services, students interested in law, etc.

Learnt the importance of community

GROWTH JOURNEY

Not a lot of law students get to have such a unique experience. The experience strengthened my interest in public-interest legal work and showed me the importance of clear, inclusive legal education in helping people understand and exercise their rights.
