

# Which book titles are available through my subscription to AccessMedicine?

There are more than 120 titles in AccessMedicine, including *Harrison's Principles of Internal Medicine* and *CURRENT Medical Diagnosis & Treatment*.

The titles that are in AccessMedicine are the same for all AccessMedicine subscriptions. In other words, the content on the site will be the same regardless of whether your institution is large or small.

**You can view the list of titles by going to Books, Library and then selecting “View and exportable list of resources” from the tools drop down menu.**
